

Cost Basis Election Form

Instructions

Use this form to elect or change a cost basis method for your taxable account(s). If you have multiple accounts and would to elect a different cost basis methodology, please complete a separate form for each account. A cost basis method election is for covered shares (those acquired on or after January 1, 2012), and is used to calculate the gain or loss when shares are sold.

If you previously elected a cost basis method other than Average Cost for your covered shares, or if you elected or were defaulted to Average Cost and there were no redemptions or transfers of covered shares from your account, your election will be applied retroactively to your existing covered shares. If you elected or were defaulted to Average Cost and there were redemptions or transfers of covered shares from your account, your election will be applied for sales of future shares acquired.
